To Whom It May Concern:

Vincent Wolle is our exclusive commercial agent for the Central Florida Area and has helped us acquire seven sites and is currently in the process of getting us an additional five locations. His knowledge of the area and market, along with his aggressive marketing has helped us grow into a major player in the cellular business in the Orlando area.

Knowing that Vince knows how to "think like we think" helps us communicate with each other. He is a valuable asset to our company and we will only use him when we need service. Vince is definitely a keeper.

Sincerely,

Erik Bell
Vice President
